SCIENTIFIC PROGRAM

About Precision Global Conferences

Precision Global Conferences (PGC) stands as a trusted leader in international scientific and industry event management, with a proven track record of delivering over thirty world-class conferences across premier innovation hubs in the United States, Europe, and Asia — including Singapore, Miami, San Francisco, Boston, Barcelona, Bangkok, and Paris. We specialize in creating high-impact platforms that unite life science innovators, leading researchers, distinguished industry experts, and forward-thinking technology companies under one roof.

Among our flagship events, the International Obesity and Metabolism Conference and the Diabetes and Endocrinology World Conference have emerged as premier gatherings that bring together the world's most innovative minds in obesity research, metabolism, diabetes care, endocrinology, nutrition science, and metabolic health. These events drive meaningful dialogue and collaboration that shape the future of healthcare, offering expertly curated scientific programs, executive-level networking, and strategic environments designed to accelerate research, innovation, and clinical advancements.Our dedication to quality, professionalism, and global engagement has cultivated a thriving international community that grows stronger with every event. To date, our conferences have proudly united participants from around the world, representing leading universities, healthcare institutions, research organizations, and industry partners, while welcoming distinguished speakers, clinicians, and thought leaders—a testament to the growing reach and influence of our platform. We remain unwavering in our mission to connect brilliant minds, inspire transformative ideas, and drive meaningful progress in obesity, metabolism, diabetes, and endocrinology on a truly global scale.
